

Medication Assistance Program (MAP)

You can qualify for MAP with at least one of the following:

1. Need affordable prescriptions
2. Eligible for Medicaid
3. Uninsured

1

Ask your provider if your medication qualifies as a MAP product.

2

If your medication qualifies, our MAP Coordinator, Virginia Robinson, will contact you to get a consent form signed for permission to enroll you in the program, verify your income, and complete the program application.

3

Your completed application will then get signed by your provider and sent to the pharmaceutical company for approval.

4

After your application is approved, you will get a call from Virginia Robinson letting you know that your medication is ready and will be sent to you.
