Sliding Scale Discount

Central Virginia Health Services (CVHS) uses a sliding fee scale to determine financial assistance “discounts” based on an individual’s income and family size.

Since COVID, the cost of doing business has significantly increased. CVHS has done our best over the past five years to absorb those costs, but **effective 4/1/25**, we will be adjusting our sliding scale discount. This change ensures that we can maintain quality services you expect from us.

Our commitment to providing high-quality care remains our top priority. We understand that price changes can be challenging and we are dedicated to working to ensure this is not a hardship on our patients through offering payment plans. Please speak with the Practice Manager for more information on getting on a payment plan. We truly appreciate you trusting CVHS with your healthcare needs.

Updated Fees:

Slide A - \$15

Slide B - \$25

Slide C - \$35

Slide D - \$45

Effective 4/1/2025

If you are on our slide and have insurance, your co-pay will be the smaller of the two amounts. For example, if your co-pay from the insurance is \$12, and you are eligible for the A Slide (\$15), you will only be responsible for \$12. If your insurance co-pay is \$25 and you are eligible for the A Slide (\$15), you will only be responsible for the \$15 slide co-pay.

Benefit #1

It keeps the cost of health care affordable for individuals and families.

Families can balance health care costs and other expenses.

Benefit #2

The sliding fee discount may be used even if you have insurance.

It is helpful for high deductible plans and plans with high co-pays.

Benefit #3

Sliding fee also applies to medications prescribed by CVHS providers and filled by the CVHS Pharmacy.

Patients may qualify for additional pharmacy discount programs.
